

## Hexagon

**DESALTO**

**DESIGN** TOKUJIN YOSHIOKA  
DESALTO, ITALY

The Hexagon collection of small tables is inspired by the honeycomb structure in nature. Pure and rigorous forms are detailed and executed with meticulous precision. The various dimensions and heights allow combinations to overlap, responding to the most diverse requirements of use.

Hexagon tables are available as a large low coffee table or as a smaller low side table. The 3 smallest sizes are designed to nest one over the other.

### PRICING

\$872.73 — \$5122.73 Trade pricing ex GST  
Min = entry level, max = premium finishes
