wästberg

DESIGN SAM HECHT AND KIM COLIN
WÄSTBERG, SWEDEN

The w162 Dalston, designed by London-based Sam Hecht and Kim Colin for Wästberg, is a beautifully crafted pendant light that seamlessly blends industrial influence with refined design. With its simple yet sophisticated form, the Dalston adds a touch of elegance to any contemporary space.

Crafted from high-quality materials, The w162 Dalston features a sleek, cylindrical shade that provides both direct and diffused light. Its minimalist design is paired with a solid brass detail, giving it a warm, modern aesthetic that complements a variety of interior styles, from urban lofts to more traditional settings.

The w162 Dalston is ideal for creating focused illumination in dining areas, kitchens, or living rooms, providing a bold yet understated lighting solution. With its timeless design and carefully considered proportions, the Dalston is an enduring piece that brings both style and function to your space.
